ICON GLOSSARY

Made in the USA
Berry Amendment Compliant; all components are produced and manufactured in the USA.

Ro-Search Certified Manufacturer
Outsoles and construction methods by Ro-Search, an R&D company with 50 years experience.

Vibram® Outsole
High-performance rubber outsoles provided by world-renowned manufacturing company.

All leather upper
Fully polishable, water resistant upper can withstand years of hard use.

Waterproof
Waterproof membrane construction keeps you dry and comfortable.

Anti-Penetration
Keeps your feet safe from underfoot puncture dangers with a Lenzi® anti-penetration safety board that passes the EN 12568 standard.

Slip Resistant
Passes the ASTM F2913-17 standards, and well exceeds the safety requirements.

Airport Friendly
Non-metallic hardware and shank makes working around metal detectors worry-free.

Drainage Vents
Keeps feet cool and dry, and features durable mesh, keeping debris out.

Aegis™ Antimicrobial
Moisture wicking lining with antimicrobial protection reduces odors and skin damage.

Safe-To-Fly
Construction and features are compliant with the guidelines set out by the USAF.

Cold Weather Insulation
Thinsulate™ insulation keeps feet warm without adding undue weight or bulk.

Cold Weather Outsole
Special rubber formulation does not harden in cold weather, giving outstanding traction on icy and wet surfaces.

Flame Retardant
Protects your feet from the effects of exposure to flame or intense heat.

AR 670-1 Compliant
Adheres to the guidelines of military dress code AR 670-1.

Safety Toe
Protects your toes from crushing injuries due to impact force.

Dual-Density Comfort System
Removable PU footbed combines with a lined, cushioned midsole board to offer two separate layers of lasting comfort and support.

Back Part Molding
Heel counter is Back Part Molded to produce a customized curve that cups the foot, eliminating all "break-in" discomfort.

Thermoplastic Toe Box
Ergonomically molded thermoplastic toe box ensures ideal fit from the first wear.

Scotchgard®
Suede styles are treated with 3M Scotchgard® to protect from spills and stains.

Side-Zipper
Genuine YKK® side-zipper for easy on/off fit, custom built snagless housing, and durable zipper stop.

UFit Lacing System
Ensures that the foot is properly positioned within the boot to eliminate rubbing and discomfort.

Gore-Tex®
Gore-Tex® certified waterproof membrane construction keeps you dry and comfortable.

Soles by MICHELIN
Outsoles built to the highest, most innovative standards for rubber, tread, and traction by MICHELIN for Altama.

General Services Administration Compliant
Compliant with the guidelines set out by the General Services Administration and assembled in approved countries.

NTOA Member Tested and Recommended
Tested and recommended by members of the National Tactical Officers Association.

Altama® has created tactical boots for every American conflict and every environment since **1969**.

In 2017, Altama became the leading manufacturer for the U.S. Department of Defense. That is an honor backed by a history of commitment to excellence, continued improvement through research and development, and trustworthy service.

The men and women that build Altama boots take pride in that foundation of excellence, and look forward to the future, knowing that they will continue to provide the best boots available.

Boots that can be trusted to take you **there and back**.

THERE AND BACK. SINCE 1969.

ALTAMA®

ALTAMA®

CORE DIVISION

BUILT FOR SPECIAL OPS. WORN BY THE ELITE -

Designed specifically for special operations, this division was built with unique features that meet the needs of those who are called to perform at the highest level.

- URBAN
- MARITIME

MATERIALS

Flex Knit upper moves easily with the foot for comfort and breathability offered in both solid colors and MultiCam®

Air mesh linings help wick away sweat and other moisture quickly from your foot

Non-shine rust-proof lace hardware will not break on the battle field

Rubber toe cap prevents wear and tear, while offering additional protection

INSOLE/OUTSOLE

Anti-microbial PU foam insole with fabric top cover

Full length one piece ABS shank provides stability and support when climbing ladders

High abrasion rubber sticky outsole originally developed for rock climbing shoes, meets ASTM F2913-19 test for slip resistance

Zero Drop outsole provides full contact with the floor for increased stability

FEATURES

Integrated chunky knit vent allows for proper airflow around the foot

Constructed with comfortable knit uppers and a proven, high stability sole to keep you ready for anything, anywhere

Heel counter is Back Part Molded to produce a customized curve that cups the foot, eliminating all “break-in” discomfort

5% of all profits from the sale of the Alpine Multicam® CP styles (334759 | 334659) go to funding research at the American Cancer Society

MARITIME

MATERIALS

High abrasion quick drying 1000D Cordura® quarter panels offered in both solid colors and MultiCam®

Air mesh linings help wick away sweat and other moisture quickly from your foot

Non-shine rust-proof lace hardware will not break on the battle field

Low profile laces will not cause pain from fin wear on long swims

INSOLE/OUTSOLE

PU contoured insole will not absorb water

Full length one piece ABS shank provides stability and support when climbing a caving ladder

SEAL Rubber sticky outsole; The rubber compound was originally developed for rock climbing shoes and modified for wet tactical operations

SEAL Rubber is one of the stickiest, high traction rubbers on the market today and meets ASTM F2913-19 test for slip resistance

FEATURES

Specifically designed for all tactical water operations

Front non-metallic drain ports allow for water to drain easily when flexing the boot

Fin friendly fit; the Maritime Assault boot fits just about all dive fins used by Militaries worldwide

DEFENSE DIVISION

DESIGNED TO DELIVER

the ultimate comfort and value to uniform and military markets. This series of modern tactical boots is built to get the job done.

- JUNGLE ASSAULT

- RAPTOR

- FOXHOUND

- VENGEANCE

- ABOOTTABAD

JUNGLE ASSAULT SZ SAFETY

MATERIALS

- Fleshout cowhide leather and high abrasion, extremely breathable textile paneled upper
- Open air mesh quarter linings help wick away sweat and other moisture from the foot
- Non-shine rust proof hardware will not break on the battlefield
- Triple bonded nylon thread used in every stitch for durability
- YKK coil self-repairing zipper

INSOLE/OUTSOLE

- Full length dual density perforated and molded EVA footbed provides athletic shoe comfort, allowing air to circulate around the foot, maintaining optimal drainage and improving foot health
- Full length composite shank supports and cups the foot under heavy loads while mating perfectly to the EVA footbed for increased ankle support
- Inner fast roping guard molded into the rubber outsole prevents boot wear during fast roping
- High abrasion rubber outsole meets ASTM F2913-19 test for slip resistance, and is designed to hold fast while shedding mud and debris, keeping you from clogging up or slipping in muddy situations

FEATURES

- Textile panels allow increased air circulation to speed drying and keep feet cool
- Inner and outer drain ports allow water to drain easily
- Fleshout cowhide and rubber zipper lock remains secure with Velcro® hook and loop fastening
- ASTM F2413-18 compliant composite safety toe

ICON GLOSSARY

Waterproof
Waterproof membrane construction keeps you dry and comfortable

Bloodborne Pathogen Resistant
BBP resistant materials and treatments reduce the risk of disease transmission

Anti-Penetration
Keeps your feet safe from underfoot puncture dangers with a Lenzi® anti-penetration safety board that passes the EN 12568 standard

Slip Resistant
Passes the ASTM F213-17 standards, and well exceeds safety requirements

Airport Friendly
Non-metallic hardware and shank makes working around metal detectors worry-free

Ortholite® Insole
Open-cell foam technology in the footbed provides comfort that will not diminish over time

Aegis™ Antimicrobial
Moisture wicking lining with antimicrobial protection reduces odors and skin damage

Cold Weather Insulation
Thinsulate™ insulation keeps feet warm without adding undue weight or bulk

Cold Weather Outsole
Special rubber formulation does not harden in cold weather, giving outstanding traction on icy and wet surfaces

Flame Retardant
Protects your feet from the effects of exposure to flame or intense heat

EH Resistant
Outsole exceeds the ASTM F2412-11 and F2413-11 standards for resistance to electric shock

Safety Toe
Protects your toes from crushing injuries due to impact force

Dual-Density Comfort System
Removable PU footbed combines with a lined, cushioned midsole board to offer two separate layers of lasting comfort and support.

Back Part Molding
Heel counter is Back Part Molded to produce a customized curve that cups the foot, eliminating all "break-in" discomfort.

Thermoplastic Toe Box
Ergonomically molded thermoplastic toe box ensures ideal fit from the first wear.

Scotchgard®
Suede styles are treated with 3M Scotchgard® to protect from spills and stains

EN ISO Certified
Meets an EU footwear quality standard, compliant to either EN ISO 20345 for safety, or EN ISO 20347 for occupational, footwear

Side-Zipper
Genuine YKK® side-zipper for easy on/off fit, custom built snagless housing, and durable zipper stop

Anti-Static
Anti-static protection to EN ISO 20345:2011 standard

UFit Lacing System
Ensures that the foot is properly positioned within the boot to eliminate rubbing and discomfort.

Integrated Holster
Integrated holster fits most 9mm single stack handguns.

Women's Sizes
Properly built and fitted on a women's-specific last for optimum comfort and performance

General Services Administration
Compliant with the guidelines of the General Services Administration and assembled in approved countries

NTOA Member Tested and Recommended
Tested and recommended by members of the National Tactical Officers Association.

ORIGINAL S.W.A.T.®

In 1999 the first Original S.W.A.T. boot was designed. The goal was to make footwear that was specifically designed for elite S.W.A.T. teams. The challenge facing the industry was how to make a boot that could meet the demands of the different environments that law officers face - while being comfortable enough to support a double shift. The answer was to re-evaluate the way that boots had been made for 60 years - no more "make your foot fit the boot." But now Original S.W.A.T. was making boots that fit your feet. The revolution was in using lasts that were influenced by an athletic structure; fitting the foot in the right places while offering the support of a boot, thus forming our legendary NO BREAK-IN PERIOD.

In a 2006 interview, founder Terry Mackness predicted that the tactical industry would continue to feed off of the advances in athletic footwear. In 2019, Original S.W.A.T. released the Alpha Series - our most athletic boot to date.

PRIDE TRUST RESPECT

ORIGINALSWAT.COM

ALPHA SERIES

LEAD THE WAY

With the fit and responsiveness of an athletic shoe - and the functionality and stability of an all-day, hardworking boot; the Alpha Fury impresses even the most athletic first responders. With the evolution of tactical footwear the Alpha Series still holds true to our legendary reliability.

**ASTM
SAFETY**

EXCEED THE STANDARD

Our safety boots are designed with 100% composite safety toe caps that exceed the standards for ASTM F2413-18. The non-metallic toe cap doesn't conduct heat or cold; so they are comfortable under any condition. Our wider width toe cap does not pinch or bind the toes making them worthy of Original S.W.A.T.'s high quality standards.
